The applicant also draws attention to the construction of the Sheptak film, which is not totally coextruded, but relies on extrusion lamination in order to adhere the oriented polypropylene outer layer to the coextruded substrate. The Hirt reference offers no description of the manner of construction, but it appears unlikely that a totally coextruded film is envisioned. The reference does teach that one of the two sheets 1 and 2 may also be an aluminum foil, suggesting a laminated, not coextruded structure.

The applicant has made a bona fide effort to respond to the grounds of rejection, and solicits speedy allowance of the claims as amended. The Examiner is also invited to communicate with the applicant's representative if it will expedite the prosecution of this case.

Respectfully submitted

TRANSMITTAL OF AMENDMENT

Honorable Commissioner of Patents and Trademarks Washington, D. C. 20231

Sir:

Transmitted herewith for filing is an amendment with regard to the above-identified application.

The fee, after amendment, has been calculated as shown below:

	Claims Presented	Highest Prev. Paid for	Prese Extra	
TOTAL	23	- (20) or	28 =	x 12 =000.00
INDEPENDENT	3	- (03) or	4	x 34 =000.00
FIRST PRESENT	CATION OF MU	LTIPLE DEPENDENT	CLAIMS	+110 = 000.00
				TOTAL= 000.00

Please charge Grace deposit account no. 07-1765 in the total amount indicated above.

The Commissioner is authorized to charge payment or credit any overpayment of (1) any filing fees under 37 C.F.R. 1.16 for the presentation of extra claims and (2) any patent application processing fees under 37 C.F.R. 1.17 to Grace deposit account no. 07-1765.

404/870112/5/1

The Commissioner is authorized to charge any additional fees which may be required or credit any overpayment to Grace deposit account no. 07-1765.

This document is filed in duplicate.

The undersigned may be contacted at (803) 433-2817.

Respectfully submitted,

Thank B. Just

15.

The following is a quotation of 35 U.S.C. 103 which forms the basis for all obviousness rejections set forth in this Office action:

A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Subject matter developed by another person, which qualifies as prior art only under subsection (f) and (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

16.

Claims 1-23 are rejected under 35 U.S.C. 103 as being unpatentable over Sheptak in view of Mueller for reasons of record.

Applicant's arguments filed on February 17, 1987 have been fully considered but they are not deemed to be persuasive.

The rejection under Sec. 103 of claims 1-23 over Hirt is no longer adhered to in view of applicant's arguments and amendment. Contrary to arguments, Sheptak discloses a multi-layer coextruded film, which film is symetrical, comprising the same layer materials as claimed. This multi-layer film - identified as "14" in Sheptak - is a self supporting film. Also the instant

Serial No. 842,600

Art Unit 154

-3-

claims do not exclude the use of other layers. Note column 2, lines 59-64, column 3, lines 3-4 and column 4, lines 15-26 of Sheptak. AS to the argument of orientation, Sheptak teaches the orientation of layers as well as Mueller teaching coextruding and biaxially orientation of similar multi-layer films.

Ohya et al. and Dobbie et al - cited by applicant - are made of record as of interest. Ohya et al. further show oriented coextruded multi-layer (gas barrier layer containing) film of similar structure to be old with the use of adhesive bonding (tie) layers. Dobbie et al. also shows an ethylene vinyl alcohol copolymer gas barrier layer coextruded multi-layer film.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 CFR 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.

INFORMATION DISCLOSURE STATEMENT

KECEIVED

Honorable Commissioner of Patents and Trademarks Washington, D. C. 20231

MAY 14 1987

GROUP 150

Sir:

Pursuant to 37 CFR 1.56 and in accordance with 37 CFR section 1.97 et. seq. Applicant, through and by his attorneys, hereby wishes to direct the Examiner's attention to the hereinafter discussed document.

A filled in PTO-1449 form listing the document listed below is presented herewith for the Examiner's review and convenience. A copy of the listed document is enclosed. This reference appears to be relevant and/or material to the present application for the reasons given below.

U. S. Patent No. 4,561,920 issued to Foster appears to disclose a biaxially oriented barrier film of five-layer construction, with an interior layer of EVOH, tie layers, and outer layers of polyolefin such as polypropylene homopolymer or copolymer, or linear low density polyethylene.

404/870506/5/1

By inclusion of this document in this Information Disclosure Statement Applicant in no way admits that such document is effective as prior art against the above-identified application under either 35 USC section 102 or 35 USC section 103.

The Examiner is requested to review independently the cited reference for its relevance to the present case.

Please charge any additional prosecutional fees which may be due to Grace deposit account no. 07-1765.

Respectfully submitted,

mark B. Mark B. Quatt

AMENDMENT AFTER FINAL REJECTION

Honorable Commissioner of Patents and Trademarks Washington, D. C. 20231

Sir:

In response to the Office Action dated May 8, 1987 and pursuant to 37 CFR 1.116 the applicant, through and by his attorneys, hereby respectfully submits the following amendment and accompanying remarks for your review and consideration. This amendment and remarks are offered to clarify the issues and present the finally rejected claims in better form for consideration upon appeal, if such action is necessary.

IN THE CLAIMS

Kindly amend the claims as follows:

Claim /. (amended) An oriented coextruded [multilayer] film having at least seven layers arranged symmetrically comprising:

a core layer comprising an ethylene vinyl alcohol copolymer;

two intermediate layers each comprising a polyamide; 404/870518/2/1

- two outer layers each comprising a polymeric material or blend of polymeric materials; and
- said intermediate layers adhered [each of respective outer layer by a layer of adhesive polymeric material; said the multilayer film forming a symmetrical heat-shrinkable two layers, each comprising an adhesive polymeric material, structure] which adhere each of said intermediate layers to a respective outer layer .

Claim §. (Amended) An oriented coextruded [multilayer] film having at least seven layers arranged symmetrically comprising:

- a core layer comprising an ethylene vinyl alcohol copolymer; a)
- two intermediate layers each comprising a polyamide; ь)
- c) two outer layers each comprising a blend of polymeric material taken from the group consisting of (i) a blend of a linear low density polyethylene, a linear medium density polyethylene, and an ethylene vinyl acetate copolymer, and (ii) a blend of an ethylene propylene copolymer and a polypropylene; and
- [each of said intermediate layers adhered to a respective outer layer by a layer of adhesive polymeric material] two layers, each comprising an adhesive polymeric material, which adhere each of said intermediate layers to a respective outer layer .

Claim 14. (Amended) A biaxially oriented coextruded [multilayer] film having at least seven layers arranged symmetrically comprising:

- a core layer comprising an ethylene vinyl alcohol copolymer;
- b) two intermediate layers each comprising a polyamide;

404/870518/2/2

يا دندن

- c) two outer layers each comprising a blend of polymeric material taken from the group consisting of (i) a blend of a linear low density polyethylene, a linear medium density polyethylene, and an ethylene vinyl acetate copolymer, and (ii) a blend of an ethylene propylene copolymer and a polypropylene;
- [each of said intermediate layers adhered to a respective outer layer by a layer of adhesive polymeric material] two layers, each comprising an adhesive polymeric material, which adhere each of said intermediate layers to a respective outer layer; and
- e) said film having a total thickness of from about 0.5 mils to about 2 mils.

404/870518/2/3

REMARKS

The Examiner is respectfully requested to reconsider the grounds on which the Final Rejection is based.

Claims 1, 6, and 14 have been amended to clarify that:

- (1) at least seven layers are claimed, and that
- (2) these layers are symmetrically arranged.

Sheptak only teaches five layers, symmetrically arranged (14) and the overall eight layer structure (S) of the reference is assymetric.

If, as the Examiner has argued, it would be obvious to employ the outer layers of Mueller at the outer layers in Sheptak, one of two structures would result. In the first, the outer layers 15 of five-layer film 14 of Sheptak would have the blends disclosed in Mueller. The second possibility would be that one of layers 15 (adjacent the porous mass of glass fibers comprising batt 13) and layer 20 would be the "outer" layers of Mueller.

In either hypothetical, an oriented coextruded film having at least seven layers arranged symmetrically is not achieved.

The applicant solicits reconsideration of the Final Rejection in light of these remarks, and the claims as amended. The Examiner is invited to communicate with the undersigned representative if it will expedite the prosecution of this case.

Respectfully submitted,

Mark B. Quatt

Serial No.: 842,600

Examiner: Thomas J. Herbert

March 21, 1986 Filed:

Docket: 41259

For: Oxygen Barrier Oriented Shrink Film

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Honorable Commissioner of Patents and Trademarks Washington, D. C. 20231

Sir:

Further to the Information Disclosure Statement of May 8, 1987 and pursuant to 37 GFR 1.56 and in accordance with 37 GFR section 1.97 et. seg. Applicant; through and by his attorneys, hereby wishes to advise that on or about the first week in June, 1985, unoriented film samples having the construction:

ALLDRE based/Nylon 6/EVOH/Nylon 6/LLDRE based/902-LLDRE / The Eayer / 10% Anelblock 10% Antiblock/Tie Layer /

were tested at Richardson Foods (New York) and So-Pak-Co (South Carolina) for use in vertical form/fill/seal machinery as pouch material.

The film was unoriented, and is the subject matter of USSN 834,694 filed February 28, 1986. The applicant is Ennis Fant.

404/870611/3/1

The applicant did not earlier submit this information through the inadvertent oversight of applicant's representative.

The Examiner is requested to review independently the cited material for its relevance to the present case.

Please charge any additional prosecutional fees which may be due to Grace deposit account no. 07-1765.

Respectfully submitted,

Mark B. Quatt

Art Unit 154

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.

In accordance with the telephone interview held with Mr. Mark B. Quatt on June 8, 1987, amend the claims as follows.

Claim 5, line 1, cancel "claim 1" and insert

therefor --claim 4--.

Cancel non-elected claims 24-28.

NOTICE OF ALLOWANCE AND ISSUE FEE DUE

W. R. GRACE & CO. CRYOUAC DIVISION PATENT DEPT. P.D. EOX 464 DUNCAN, SC 29334

The application identified below has been examined and found allowable for issuance of Letters Patent. PROSECUTION ON THE MERITS IS CLOSED.

OXYGEN BARRIER ORIENTED SHRINK FILM

All communications regarding this application should give the serial number, date of filing, name of applicant, and batch number.

Please direct all communications to the Attention of "OFFICE OF PUBLICATIONS" unless advised to the contrary.

	SC/SERIAL NO.	FILING DATE	TOTALCLAMS	EXAMINER AND GROUP ART UN	VET .	DATE MAILED
· · · · · · · · · · · · · · · · · · ·	06/842,600	03/21/86	023	HERBERT JR, T	159	D7/24/87
First Nankel Applicant	SHAH		GAI	JTAM P.		
Alymbrant . TITLE OF INVENTION		RRIFR ORIEN				

A	ATTY'S DOCKET NO.	CLASS-SUBCLASS	BATCH NO.	APPLN. TYPE	SMALL ENTITY	FEE DUE	DATE DUE
	41259	428220.000	C26	UTILITY	, ₁ 40	\$560.00	10/26/87

The amount of the issue fee is specified in 37 C.F.R. 1.18. If the applicant qualified for and has filed a verified statement of small entity status in accordance with 37 C.F.R. 1.27, the issue fee is one-half the amount for non-small entities. The issue fee due printed above reflects applicant's status as of the time of mailing this notice. A verified statement of small entity status may be filed prior to or with payment of the issue fee. However, in accordance with 37 C.F.R. 1.28, failure to establish status as a small entity prior to or with payment of the issue fee precludes payment of the issue fee in the amount so established for small entities and precludes a refund of any portion thereof paid prior to establishing status as a small entity.

THE ISSUE FEE MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE as indicated above. The application shall otherwise be regarded as ABANDONED. The issue fee will not be accepted from anyone other than the applicant: a registered attorney or agent; or the assignee or other party in interest as shown by the records of the Patent and Trademark Office. Where an authorization to charge the issue fee to a deposit account has been filed before the mailing of the notice of allowance, the issue fee is charged to the deposit account at the time of mailing of this notice in accordance with 37 C.F.R. 1.311. If the issue fee has been so charged, it is indicated above.

In order to minimize delays in the issuance of a patent based on this application, this Notice may have been mailed prior to completion of final processing. The nature and/or extent of the remaining revision or processing requirements may cause slight delays of the patent. In addition, if prosecution is to be reopened, this Notice of Allowance will be vacated and the appropriate Office action will follow in due course. If the issue fee has already been paid and prosecution is reopened, the applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a deposit account.

In the case of each patent issuing without an assignment, the complete post office address of the inventor(s) will be printed in the patent heading and in the Official Gazette. If the inventor's address is now different from the address which appears in the application, please fill in the information in the spaces provided on PTOL-85b enclosed. If there are address changes for more than two inventors, enter the additional addresses on the reverse side of the PTOL-85b.

The appropriate spaces in the ASSIGNMENT DATA section of PTOL-85b must be completed in all cases. If it is desired to have the patent issue to an assignee, an assignment must have been previously submitted to the Patent and Trademark Office or must be submitted not later than the date of payment of the issue fee as required by 37 C.F.R. 1.334. Where there is an assignment, the assignee's name and address must be provided on the PTOL-85b to ensure its inclusion in the printed patent.

submitting payment therewith. If use of a deposit account is being authorized for payment, PTOL-85c should also be forwarded. The order must be for at least 10 copies and must accompany the issue fee. The copies ordered will be sent only to the address specified in section 1 or 1A of PTOL-85b.

······································

IMPORTANT REMINDER

Patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. See 37 CFR 1.20 (e)-(i).

NOTICE OF ABANDONMENT

This application is abandoned in view of:
1. □ Applicant's failure to respond to the Office letter, mailed
2. ☐ Applicant's letter of express abandonment which is in compliance with 37 C.F.R. 1.138.
3. Applicant's failure to timely file the response received within the period set in the Office letter.
4. Applicant's failure to pay the required issue fee within the statutory period of 3 months from the mailing date of 7-24-87 of the Notice of Allowance.
☐ The Issue fee was received on
☐ The issue fee has not been received in Allowed Files Branch as of
In accordance with 35 U.S.C. 151, and under the provisions of 37 C.F.R. 1.316(b), applicant(s) may petition the Commissioner to accept the delayed payment of the Issue fee, if the delay in payment was unavoidable. The petition must be accompanied by the Issue fee, unless it has been previously submitted, in the amount specified by 37 C.F.R. 1.17 (I), and a verified showing as to the causes of the delay.
If applicant(s) never received the Notice of Allowance, a petition for a new Notice of Allowance and withdrawal, of the holding of abandonment may be appropriate in view of Delgar Inc. v. Schuyler, 172 U.S.P.Q- 513.
5. Applicant's fallure to timely correct the drawings and/or submit new or substitute formal drawings by as required in the last Office action.
☐ The corrected and/or substitute drawings were received on
6. ☐ The reason(s) below.
